

NetPoint

Professionally produced,
live webinars and virtual events.

Professionally Produced Live Interactive Presentations

NetPoint is a fully managed live presentation service. We work with our clients closely on every event. Our producers help set up the event, train your presenters and manage the live webcast.

Professional Quality For Your Events

Our clients use us for their larger webinars or when they need maximum quality.

- Webinars
- Virtual Events
- Financial reporting
- Training

Live or Hybrid?

Your NetPoint can be a 100% live event, or we can pre record your presenters and play the recorded presentation then go to live Q&A. An ideal solution for complete control over your presentation.

Reports & Replays

Your live NetPoint webcast will archived on our platform where viewers can easily watch the replay at their convenience. As long as we host your replay, the viewer reports continue.

NetPoint Features

Producer driven

- Event set up help
- Client training
- Guest speaker training
- Live event producer driven

Branded Event Page

- Branding for your and sponsor
- Custom registration
- Viewer readiness check

Detailed Viewer Reports

- Registration & viewing
- Audience questions
- Polls
- Surveys

NetPoint

Professionally produced,
live webinars & virtual event webcasts.

Production & Event Services *Included with every NetPoint live event.*

Event Set Up

Every webcast we produce includes an experienced producer who will help you configure your webcast, test your event, provide technical help and training on our platform.

Presenter Training

We include a group training session with a producer prior to your live NetPoint webcast. Your presenters will be completely trained on sending slides, managing audience questions and more.

Producer Driven Live

Your live NetPoint webcast will be driven by an experienced producer. The producer will run an audio sound check, go over the control room again and take you live when all is ready.

Real Time Viewer Help

We deliver the most compatible rich media presentation service available but we know some viewers will need help. We provide real time technical support for all live NetPoint webcasts. Real people, real support.

Branded Event Page *The beginning of the viewer experience*

MORNINGSTAR

Getting Yield and Keeping It

To replay Josh Peter's May 10th Webinar please register or log-in below:

Josh Peters, the editor of Morningstar's monthly newsletter DividendInvestor and manager of its two model portfolios, worries that many investors focus too much on the extremes--maximum growth, which may not pan out, or maximum yield, which can put both dividends and the underlying capital at risk. His strategy emphasizes a balanced approach that demands a high current income, growth that at least matches inflation, and long-term preservation of capital. Join us as Josh discusses his unique approach to picking stocks, earning reliable and growing dividend payments, and minimizing long-term risks.

Webcast Readiness Check
Click here to make sure your system is ready for webcasting.

Every event needs a home so we include a branded event page with every webcast. Your webcast event page will include all the features your viewers need to learn about the event, register and even test their systems in advance for readiness.

Standard Features

- Branded to match your event
- Registration (customizable)
- Viewer readiness check
- Previously registered entrance
- Event summary (HTML based)
- Event abbreviated summary
- Event Security
- Available as JS pop open code

NetPoint

Professionally produced,
live webinars & virtual event webcasts.

Branded Interactive Player

Your online event becomes a great viewer experience

Branded for You

Your NetPoint player will be branded to match your site or event. Plus we can add a second brand for a sponsor or even custom content.

Integrated Interactivity

Your viewers can ask questions, interact with polls and complete exit surveys on your live NetPoint.

Mobile Option

Our mobile option allows your mobile viewers to listen via the telephone yet still watch the slides and ask questions via their smartphone browser.

A Great Viewer Experience

We make it easy for your viewers by supporting both PC and Mac desktops with all leading browsers. Live NetPoint events also include real time viewer help.

NetPoint Presenter Control

Web based control is easy & powerful

ID	Question	Date/Time
41	r.schumacher3@roadrunner.com Will the Star Rating stay with us.	12/20/20 6:21:28 F
40	glenndevan@snet.net Russ, you referred to yourself as a grey hair, but your picture shows you all black hairees - what's the truth?	12/20/20 5:05:14 F
39	mike.patton@integritywealth.us How do we get your book?	12/20/20 5:04:16 F
38	brian.ramer@verizon.net You mentioned TIPS earlier. Do you think there is little value going forward?	12/20/20 5:03:36 F
37	glenndevan@snet.net Are there some funds relatively insulated from European unknowns?	12/20/20 5:03:31 F
36	waywiley@cox.net Where do I find the Gold, SV, BR ratings?	12/20/20 5:03:14 F
35	anonymous what do you think of Mairs and Powers growth mpgfx	12/20/20 5:02:32 F
34	anonymous what would you advise someone holding JAOSX?	12/20/20 5:01:12 F
33	anonymous When you advise investing in a high yield fund for Roth IRAs, do you mean a high-yield bond fund?	12/20/20 5:01:00 F
32	hepernm@verizon.net what about total bond index funds?	12/20/20 5:00:46 F
31	DVDRobison@aol.com What is your current take on Fidelity Contrafund and Low- Priced Stock Fund? (Two of my long term	12/20/20 5:00:16 F

We make controlling your live event easy. From changing slides to taking audience questions, our control room gives your presenters and moderators the ease of use they want while also giving them the control they need.

Control Room Features

- Slide control
- Audience incoming questions
- Live viewer report
- Private chat room for presenters
- Reference clock
- Stop watch

NetPoint

Professionally produced,
live webinars & virtual event webcasts.

Replay & Reporting

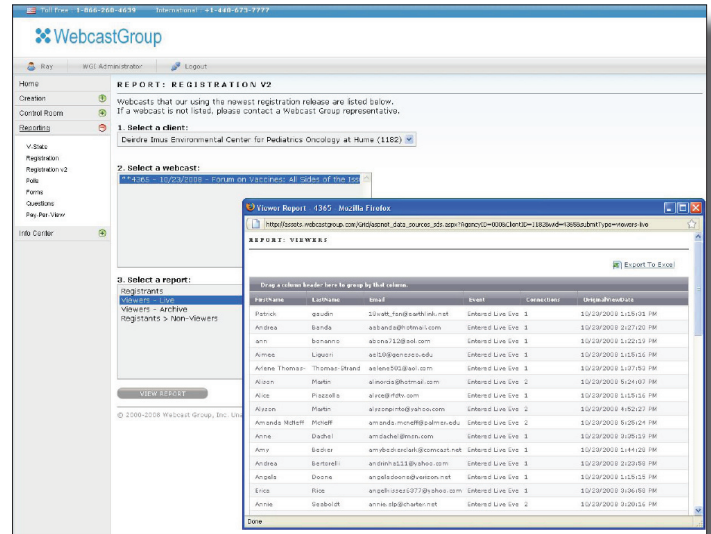

The data you need for an accurate event ROI

Our registration and reporting system continues working for you after the live event if you use our replay service.

Your custom event registration also delivers detailed viewer reports.

Reports include:

- Who registered
- Who watched live
- Who watched the replay
- Who did not watch
- Viewer questions
- Poll results
- Exit survey results

All reports may be viewed online or downloaded.

Technical Requirements

Viewer Requirements

We make it easy for your viewers to attend a live webcast. Our live webcasts are extremely compatible with all PC and Mac desktops and with our mobile option we can deliver to a nearly universal audience.

Desktop Viewing Requirements

Screen resolution 800 x 600 or greater
Mac OSX or Windows
Safari, FireFox, Chrome, IE(PC only)
Silver Light (alternatively, Flip4Mac), & Flash player

Mobile Viewing Requirements

Telephone dial in
Mobile browser for slides and questions

Presenter Requirements

Presenters and moderators can easily access our web based control room. We do NOT use screen sharing so there are no security or performance issues for your presenters.

Presenter Audio

We gather speaker audio via a telephone conference. We recommend speakers be on a land line and a hand set. The audio conference then becomes a live webcast. All source control is managed by your live producer.

Presenter Control Requirements

Screen resolution 1024 x 768 or greater
Mac OSX, Windows
Safari, FireFox, Chrome, IE (PC only)
Internet connection DSL or greater
